

Quality Control Analyst II - Microbiology

Based at the Edinburgh BioQuarter, RoslinCT is a leading Contract Manufacturing and Development organisation within the cellular therapies/ATMPs field, performing cutting edge investigational medicinal product manufacture for clinical trials across Europe and the US.

The Company is now embarking on an exciting period of planned growth, and we are recruiting for some key operational roles to help support and lead that growth into the future, including this one.

We are searching for a **Quality Control Analyst II – Microbiology** to join our expanding QC Microbiology team and support our GMP manufacture of cell therapies and cell banking as we expand into our new facility at the BioQuarter.

Candidates for this role must also be able to demonstrate a strong commitment to our Core Values, and so should be:

- Passionate about Customer Satisfaction
- Able to support a 'one team' approach
- A great communicator
- Committed to personal growth and development
- Accountable for their work

Main Function:

This role of QC Analyst II - Microbiology will report directly to the QC Supervisor - Microbiology and will support the current GMP production of cellular therapies and cell banking. You will also provide environmental monitoring support for the GMP clean room facility including sampling and associated microbiology activities.

Specific Responsibilities:

Your responsibilities as the QC Analyst II – Microbiology may vary but will include;

- Perform QC activities in accordance with GMP including environmental monitoring, growth promotion and identification techniques.
- Support the environmental monitoring program in the Cellular Therapy Facility, including sampling, microbiology assays and trending of EM data.
- Complete quality related documentation including QC records, change controls, incidents/deviations and risk assessments in accordance with GMP and standard operating procedures.
- Write assay qualification documentation and performing routine QC testing of cellular therapies and cell banks.
- Source and/or establish in-house QC assays as required and perform qualification of QC assays and equipment.
- Co-ordinate QC testing with external companies.

- Write and update SOPs for QC activities, and compile QC reports and certificates of analysis in addition to more general record keeping.
- Training of junior team members (QC Technicians & QC Analyst I).
- Support the compilation of information used to communicate with clients.
- Communicate procedures and results with clients and liaise with external suppliers, demonstrating excellent customer service skills for both internal and external customers.
- Compliance with all Health and Safety policies and procedures.
- Providing out of hours cover for critical equipment alarms as required on a rotational basis.

Qualifications Required:

The post holder will have:

- A BSc in a Life Sciences subject, or an equivalent qualification.

Skills/Experience Required:

The post holder will also have:

- Applied knowledge of microbiology gained from working within a GMP scientific laboratory.
- Experience in environmental monitoring – essential.
- Experience in incident investigations – advantageous.

Benefits:

- Group Personal Pension Plan: 3% Employee contribution with an Employer contribution of initially 5% for the first year of joining the scheme then a 1% increase per year until a maximum of 8% is reached
- Group Life Cover, 3x Salary
- Health4All Cash Plan where you are able to claim cash back towards dental check-ups and treatment, new glasses, contact lenses and therapy treatments such as physiotherapy and chiropody and more.
- Employee Assistance Programme
- 31 days annual leave with an extra day from 3 years' service and a further day from 5 years' service
- 4 public holidays

Location: Edinburgh and Lothian. *Please check our location and ensure you can realistically commute to site as we have limited parking available.*

Closing date: TBC

To apply, please send your CV, a covering letter with your salary expectation and confirmation you have the right to work in the UK to jobs@roslinct.com.
